CORE STRENGTHS

- Content Writing
- Problem Solving
- Critical Thinking
- Initiative
- Leadership
- Communication
- Self-Learning
- Knowledge Sharing

AREAS OF INTEREST

- Artificial Intelligence
- Data Science
- Full Stack Development
- Software Engineering
- Technical Writing
- Open Source Technologies
- Technology Innovation

DECLARATION

I hereby declare that the information provided above is true and accurate to the best of my knowledge and belief.

Yogesh Gate

PROFESSIONAL SUMMARY

Computer Science student pursuing a B.Tech in Computer Science & Engineering at NMIET and a BS in Data Science and Applications from IIT Madras. Skilled in Full Stack Development, Python, JavaScript, TypeScript, and Data Science fundamentals. Demonstrated leadership through hackathons, technical initiatives, and content platforms. Passionate about building impactful software solutions, solving real-world problems, and continuously learning emerging technologies.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering
NMIET

Bachelor of Science (BS) – Data Science and Applications
IIT Madras

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

- C
- Python
- JavaScript
- TypeScript
- SQL

WEB DEVELOPMENT

- HTML
- CSS
- React.js
- Node.js

DATABASES

- MongoDB
- SQL

TOOLS & PLATFORMS

- Git
- GitHub
- VS Code
- Microsoft Excel
- Google Sheets

CORE CONCEPTS

- Data Structures & Algorithms
- Full Stack Development
- Data Science Fundamentals
- Problem Solving

PROJECTS

TO_LET Smart Rental Management System
- Developed a rental management platform for handling tenants, properties, rent tracking, and management workflows.
- Focused on improving efficiency through a structured and user-friendly system.
- Technologies Used: TypeScript, React, Node.js, MongoDB.

AI Life Personal OS
- Built a productivity-focused platform integrating task management, note organization, and workflow management.
- Explored AI-powered concepts to improve user productivity and organization.
- Technologies Used: Python, AI Tools.

Election Guide Assistant
- Developed an interactive platform to simplify election-related information and improve accessibility for users.
- Designed an intuitive interface for delivering information effectively.
- Technologies Used: HTML, CSS, JavaScript.

LEADERSHIP & ACHIEVEMENTS

AI for Bharat Hackathon
Participated in the AI for Bharat Hackathon and contributed to developing innovative technology-based solutions.
Led team coordination, discussions, and project execution during the competition.

College Hackathon
Led a team in a college-level hackathon competition.
Achieved a position among the Top 10 Teams through effective collaboration, technical execution, and problem-solving.

Technical Workshops
Participated in multiple workshops focused on Artificial Intelligence, Data Science, Software Development, and Emerging Technologies.
Enhanced practical knowledge through hands-on learning experiences and technical sessions.

INITIATIVES

Founder — YG Thoughtful Perspectives
Founded and manage a blogging platform focused on technology, learning, innovation, and personal growth.
Share insights, perspectives, and educational content through articles and blogs.

YG Visuals
Explore digital creativity through content creation, branding concepts, and visual storytelling.
Create engaging digital content and design-focused projects.
