YOGESH GATE

Computer Science Engineering Student | Full-Stack Development • AI Applications • Data Science

Pune, Maharashtra | mr.yogesh8262@gmail.com | linkedin.com/in/yogeshg07 | github.com/yogeshg-05

PROFESSIONAL SUMMARY

Second-year Computer Science Engineering student at NMIET, Pune, focused on building practical software at the intersection of full-stack development, AI applications, and data science. Hands-on experience developing web platforms and productivity-focused tools, with participation in hackathons and student-led technical initiatives. Interested in solving real-world problems through clean implementation, thoughtful product design, and continuous learning.

TECHNICAL SKILLS

Programming: C, Python, JavaScript, TypeScript, SQL

Web Development: HTML, CSS, React, Node.js

Databases: MongoDB, SQL

Tools: Git, GitHub, Visual Studio Code, Microsoft Excel, Google Sheets

Foundations: Data Structures & Algorithms, Full-Stack Development, Data Science Fundamentals, Problem Solving

SELECTED PROJECTS

TO-LET — Smart Rental Management System

• Designed a rental-management platform concept for organizing tenant, property, rent-tracking, and management workflows.

• Focused on a structured, user-friendly experience for rental-related information.

• Stack: TypeScript, React, Node.js, MongoDB.

AI Life Personal OS

• Developed a productivity-focused platform concept combining task management, note organization, and workflow management.

• Explored AI-powered features to improve personal organization and productivity.

Election Guide Assistant

• Built an interactive web-platform concept to make election-related information easier to access and understand.

• Designed an accessible interface for presenting information clearly.

• Stack: HTML, CSS, JavaScript.

EDUCATION

B.Tech, Computer Science & Engineering — Nutan Maharashtra Institute of Engineering & Technology (NMIET), Pune

B.S., Data Science and Applications — IIT Madras

LEADERSHIP & ACHIEVEMENTS

AI for Bharat Hackathon: Contributed to an AI-focused hackathon project; collaborated on solution development and team coordination.

College Hackathon: Led a college-level hackathon team that reached the Top 10 through solution development, technical execution, and problem-solving.

Technical Workshops: Participated in workshops covering AI, data science, software development, and emerging technologies.

INITIATIVES

YG Thoughtful Perspectives: Founded a technology- and learning-focused blog exploring innovation, personal growth, perspectives, and emerging ideas.

YG Visuals: Creative content initiative focused on visual storytelling, digital content, and design-led projects.
